1. Go to MyVECTOR: <https://myvector.us.af.mil/myvector/>

Mentoring
MyVECTOR enables a web-based mentoring network that allows mentees to manage their career development with the input and guidance from a mentor. Mentees will be able to, in real-time, invite participants to serve as mentors, select mentors based on preferences, chat with their mentor online, and complete a mentoring plan.

Career Planning
MyVECTOR allows the user to view their duty experience through career-field-specific experience codes. This structure also allows the user to build career plans based on real opportunities and to share these career plans with development teams and mentors. A Bullet-Tracker option allows the user to track specific events and accomplishments throughout the year for Performance Reports.

Knowledge Sharing
MyVECTOR provides Discussion Forums and links to resources for online books and courses that discuss mentoring benefits, the differences between coaching and mentoring, and techniques for managing mentoring relationships.
