WG05 -
WG08

Part 2
Trade/Less than Journeyman

- 1 Continue required on-the-job and formal classroom training required in Civilian Training Plan
- 2 Complete task qualifications for current position
- 3 Complete task certifications for current position
- 4 Master common to complex work tasks. The work at this grade involves the maintenance, repair or construction of a variety of structures and surfaces of brick, block, stone, and other related materials. Grade masonry workers receive work orders or oral instructions outlining the work to be done and methods to be used in accomplishing the laying of whole brick, block, and stone in straight, horizontal rows. They remove damaged portions of walls, partitions, or other similar structures in preparation for repair of damage. They tear out portions of walls for the installation of doors or windows.
- 5 Maintain successful to above average performance ratings

Part 3
Journeyman

- 1 Continue required on-the-job and formal classroom training required in Civilian Training Plan
- 2 Complete task qualifications for current position
- 3 Complete task certifications for current position
- 4 Master common to complex work tasks. At Grade 10 work involves the maintenance, repair, alteration, and construction of exterior and interior surfaces and structures built of a variety of brick, block, and stone. Grade 10 masons work from oral instructions, blueprints, work orders, and rough sketches. They plan and lay out the work to be done, select the proper tools, determine materials to be used, and accomplish the work in accordance with appropriate methods and accepted trade practices. They lay common and face brick, firebrick, cinder and cement block, glass block, terra cotta, and various artificial and natural stone in constructing and repairing such items as walls, walks, chimneys, fireplaces, manholes, boilers, and catch basins.
- 7 Provide production support services
- 8 Maintain successful to above average performance ratings
