

## Professional Maintenance Certificate Program (PMxCP)

<b>WHO is Eligible?</b>	WG, GS and AcqDemo civilians in all grades with a minimum of 2 years maintenance experience
<b>WHAT is the Opportunity?</b>	PMxCP is 1 of the 4 logistics career fields under the Logistics Professional Development Program (LPDP). The voluntary program is designed to enhance professional credentials, skills and experience of the civilian logistics workforce. The program acknowledges employee learning experiences that are unique to their assigned workforce category, the logistics enterprise, and previous job experiences. Potential applicants can learn more about the program by accessing the AF LPDP/PMxCP SharePoint at the PMxCP link below.
<b>WHAT is the Outcome?</b>	Successful applicants earn a certificate in each progressive level of the program. Employees should add the PMXCP credential to the resume when applying for job opportunities.
<b>WHEN do I Apply?</b>	Application open season is spring and fall of each year, typically Mar and Oct. It normally runs for 60 days.
<b>WHERE is it Located?</b>	Most courses are available online through Air Force Institute of Technology (AFIT) or Defense Acquisition University (DAU). Some classes are in a classroom setting and may require TDY. The Program Requirements Sheet for each certificate level identifies source of training for each event.
<b>HOW do I Apply?</b>	Eligible employees will complete all program requirements as listed on assigned Requirements Sheet prior to submitting an application to their assigned base POC. At the LPDP link below, click the "Welcome to AF LPDP--Start Here" presentation.
